

## THE PILGRIMS TRAILS #HERITAGE&HISTORY

**When Mother Nature stirred up the rich plum pudding of earth over the Sabie, Graskop and Blyde River Canyon area, she did it with a generous hand, leaving all kinds of precious stones, jewels and gold for man to discover and feast on. So the whole fantastic story of the Pilgrims and the Trails of the Lowveld escarpment began.**

**FROM R1500pp**

### DISCOVER MORE:

There in the East of South Africa, where the bushveld meets the Drakensberg, among the shale, dolomite and granite of the Lowveld rock system, was deposited a number of reefs that brought men from far and wide to vertically exploit its riches. The rains came and the rivers and streams washed their wrinkles of age into the face of the earth. At the edge of the escarpment beautiful valleys were worn into the earth. The year was 1873 that an old prospector named Alec Patterson first found his way into these valleys with only his wheelbarrow and most personal possessions. With dreams of his own golden El Derado he settled next to a creek. Gold was discovered and the land was changed forever. Adventurers, rogues, heroes, saints and sinners all journeyed on foot or by horse on pilgrimage to claim their fortune. Allow our guides to take you on a journey of breath taking views, exquisite terrains and tall stories of the men and women that lay claim to this treasure of the Lowveld. Your journey will take you through the towns of Sabie, Graskop and Pilgrims rest. You will visit a series of beautiful waterfalls, see through Gods Window and be mesmerised by the Three Rondawels and Bourke's Luck Potholes. The Pilgrims Trail is a journey back in time full of adventure and rich in history.

### INCLUDES:

- A Specialist site guide
- A day trip of between 8 – 10 hours dependant on time of year and weather
- Luxury air conditioned vehicle
- Children six years and older are welcome
